Hours: Monday – Thursday 8:00 am – 6:00 pm
Friday 8:00 – 5:00 pm

Your health is important to us.

Your physical and emotional wellbeing impact not only your academic performance, but also every aspect of your life here at Liberty. Having convenient access to the health care you need, as well as preventive care, can make all the difference. No more putting off going to the doctor because of the cost!

Effective Fall 2016, Liberty University, and its counseling program, partnered with nationally recognized CVFP Medical Group to provide students with quality medical and mental health services, health promotion, and preventative care.

A \$170.00 student health fee built into tuition and fees each semester will cover a wide variety of services in our Student Health Center including:

- Physician, Nurse Practitioner, and Physician Assistant office visits
- Acute care visits
- In office lab testing and/or diagnostics (including blood draws, EKGs, and basic x-rays)
- Annual physicals
- Chronic disease management for asthma, diabetes, auto-immune disorders, and other long term conditions
- Coordination of care with specialists
- Preventative care visits
- Nutritional and health coaching
- Counseling services
- Unlimited visits to the Student Health Center

The above services will be available to full, and part time students, and will be provided by licensed physicians, midlevel providers, nurses, x-ray technicians, medical assistants and/or counselors who are committed to care for you and your health.

We believe that every student should be able to seek the quality care they need without delay. The program will eliminate many costs not covered by primary health insurance, including co-pays and co-insurance.

Some specialized lab work, procedures and/or diagnostic testing may fall outside the scope of the services provided and require a separate fee. All charges for excluded services will be personally covered by the patient. Please defer to the website for a list of these services.

While scheduled visits may be cancelled that day, there is a \$10 charge for not showing up without cancelling the appointment.

Every effort will be made to keep costs at a minimum, with additional charges not included in your Student Health Fee billed directly to your primary health insurance through the CVFP Medical Group's central billing office. As such we'll keep your primary health insurance updated in our system.

Liberty is committed to your good health and to ensuring the health care you need is there for you when you need it.
